PEAK Line tester 1209-SA0

Magnification factor	9x
Frame	Metal
Field of view	10 x 10 mm
Measuring length	10 mm
Scale	1 mm
Optical characteristics	Bi-konvex
Dimensions	35 x 23 x 33mm
Weight	15 Grams
Packaging	Cardboard box

Line testers with bi-convex glass lens. Metal frame with silver-coloured finish Aluminium frame. Optimally produced hinges guarantee long service life. Magnification factor of 9x with a visible area of 10 x 10 mm.

Order no.	Description	Price excl. VAT:
1209-SA0	Line tester, 9x	13.00 €
Delivery:	Incl. packaging, freight charges see www.m-service.de	
Payment:	30 days, net	

PEAK Line tester 1209-SA3

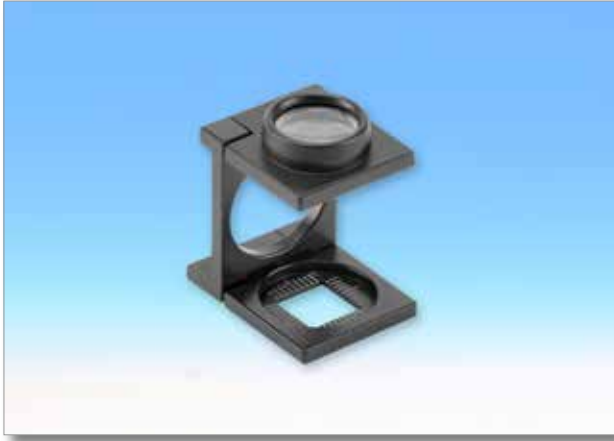

Magnification factor	9x
Frame	Metal
Field of view	10 x 10 mm
Measuring length	10 mm
Scale	1 mm
Optical characteristics	Bi-konvex
Dimensions	35 x 23 x 33 mm
Weight	15 Grams
Packaging	Cardboard box

Line testers with bi-convex glass lens. Metal frame with silver-coloured finish. Aluminium frame. Optimally produced hinges guarantee long service life. Magnification factor of 9 x with a visible area of 10 x 10 mm.

Order no.	Description	Price excl. VAT:
1209-SA3	Line tester, 9x	15.00 €
Delivery:	Incl. packaging, freight charges see www.m-service.de	
Payment:	30 days, net	

PEAK Line tester 1209-WZ3

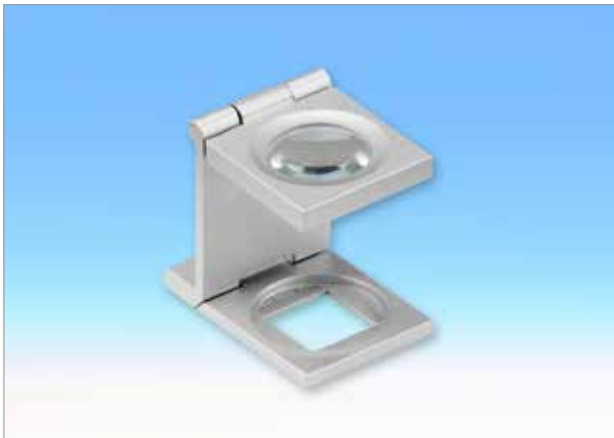

Magnification factor	9x
Frame	Metal
Field of view	10 x 10 mm
Measuring length	10 mm
Scale	1 mm
Optical characteristics	Aplanatic
Dimensions	31 x 24 x 35 mm
Weight	26 Grams
Packaging	Cardboard box

WZ3 and WA3 series line testers are equipped with aplanatic lenses for distortion-free magnification right up to the edge. The lens guarantees a high contrast image with maximum depth of field. The black enamel finish on the metal frame prevents irritating reflections.

Order no.	Description	Price excl. VAT:
1209-WZ3	Line tester, 9x	17.00 €
Delivery:	Incl. packaging, freight charges see www.m-service.de	
Payment:	30 days, net	

PEAK Line tester 3407-SA0

Magnification factor	7x
Frame	Metal
Field of view	15 x 15 mm
Measuring length	15 mm
Scale	1 mm
Optical characteristics	Bi-konvex
Dimensions	44 x 30 x 41 mm
Weight	26 Grams
Packaging	Cardboard box

Line testers with bi-convex glass lens. Metal frame with silver-coloured finish Aluminium frame. Optimally produced hinges guarantee long service life. Magnification factor of 7 x with a visible area of 15 x 15 mm.

Order no.	Description	Price excl. VAT:
3407-SA0	Line tester, 7x	16.00 €
Delivery:	Incl. packaging, freight charges see www.m-service.de	
Payment:	30 days, net	

PEAK Line tester 3407-SA3

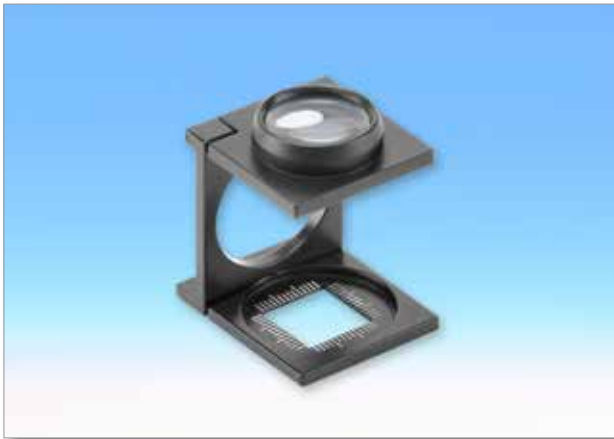

Magnification factor	7x
Frame	Metal
Field of view	15 x 15 mm
Measuring length	15 mm
Scale	1 mm
Optical characteristics	Bi-konvex
Dimensions	44 x 30 x 41 mm
Weight	26 Grams
Packaging	Cardboard box

Line testers with bi-convex glass lens. Metal frame with silver-coloured finish. Aluminium frame. Optimally produced hinges guarantee long service life. Magnification factor of 7 x with a visible area of 15 x 15 mm.

Order no.	Description	Price excl. VAT:
3407-SA3	Line tester, 7x	17.00 €
Delivery:	Incl. packaging, freight charges see www.m-service.de	
Payment:	30 days, net	

PEAK Line tester 3408-WZ3

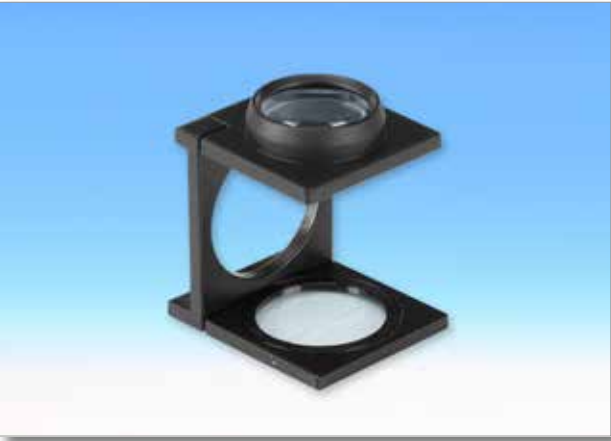

Magnification factor	8x
Frame	Metal
Field of view	15 x 15 mm
Measuring length	15 mm
Scale	1 mm
Optical characteristics	Aplanatic
Dimensions	38 x 33 x 45 mm
Weight	44 Grams
Packaging	Cardboard box

WZ3 and WA3 series line testers are equipped with aplanatic lenses for distortion-free magnification right up to the edge. The lens guarantees a high contrast image with maximum depth of field. The black enamel finish on the metal frame prevents irritating reflections.

Order no.	Description	Price excl. VAT:
3408-WZ3	Line tester, 8x	20.00 €
Delivery:	Incl. packaging, freight charges see www.m-service.de	
Payment:	30 days, net	

PEAK line tester 3408-WZ3-S (previously AP-8)

Magnification	8x
Frame	Metal
Field of view	23 mm
Measuring length	20 mm
Scale	0.1 mm
Optical system	Aplanatic
Dimensions	38 x 33 x 45 mm
Weight	50 grams
Packing	Leather case and cardboard box

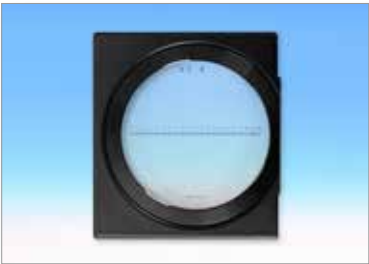

For right- or left-handers – at last we’ve got it:

the original PEAK line tester from the WZ3 series, fitted with the glass scale from the 1975 measuring magnifier. As usual the line tester has an aplanatic optical system which allows a distortion-free visualisation right up to the edge. A high depth of focus and high contrast visualisation is achieved with this optical system. The metal frame’s black finish prevents distracting reflections.

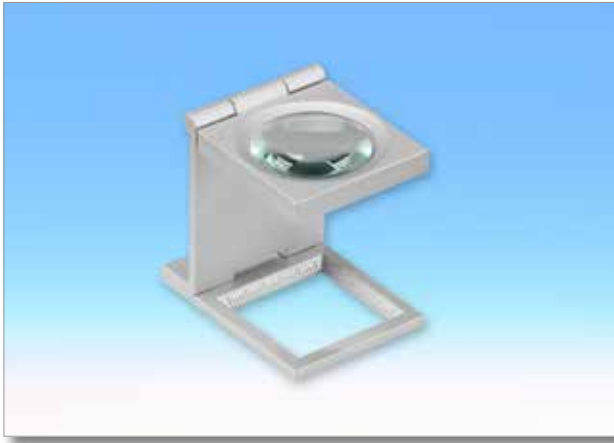

The special feature of the new type 3408-WZ3-S is that we are offering it with two order numbers: One for right-handers and one for left-handers.

You doubtless know the problem where a line tester is held on the side and the scale can no longer be seen horizontally. What concerned even us when using the old AP-8 has now been resolved. In other words, the scale on the type 3408-WZ3-S is mounted at right angles to the back and for left-handers rotated by 180°. In this way the line tester can be held firmly the scale immediately used for measuring, without having to laboriously rotate and slide the line tester. However users who have to compensate for a sight debility should use the PEAK measuring magnifiers 1975 or 1983, since these are equipped with focussing.

Order no.	Description	Price excl. VAT:
3408-WZ3-S-R	Line tester, 8x for right-handers	45.00 €
3408-WZ3-S-L	Line tester, 8x for left-handers	45.00 €
Delivery:	Incl. packaging, freight charges see www.m-service.de	
Payment:	30 days, net	

PEAK Line tester 1006-SA0

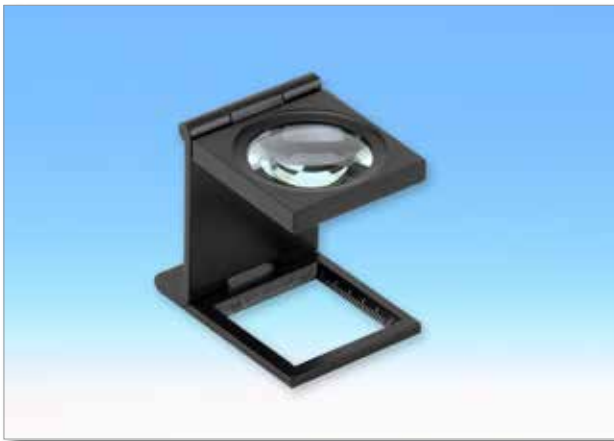

Magnification factor	6x
Frame	Metall
Field of view	25 x 25 mm
Measuring length	25 mm
Scale	1 mm
Optical characteristics	Bi-konvex
Dimensions	53 x 38 x 51 mm
Weight	42 Grams
Packaging	Cardboard box

Line testers with bi-convex glass lens. Metal frame with silver-coloured finish Aluminium frame. Optimally produced hinges guarantee long service life. Magnification factor of 6 x with a visible area of 25 x 25 mm.

Order no.	Description	Price excl. VAT:
1006-SA0	Line tester, 6x	19.00 €
Delivery:	Incl. packaging, freight charges see www.m-service.de	
Payment:	30 days, net	

PEAK Line tester 1006-SA3

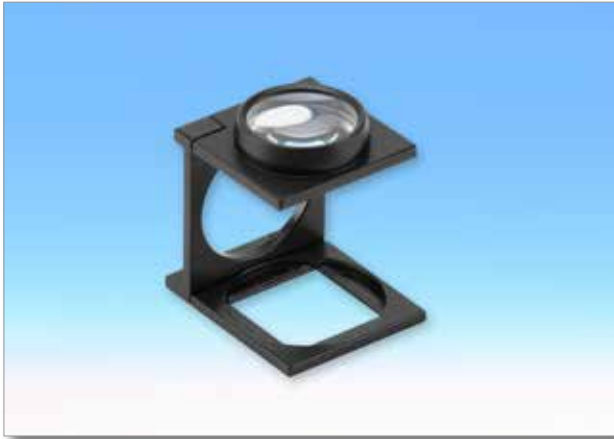

Magnification factor	6x
Frame	Metal
Field of view	25 x 25 mm
Measuring length	25 mm
Scale	1 mm
Optical characteristics	Bi-konvex
Dimensions	53 x 38 x 51 mm
Weight	42 Grams
Packaging	Cardboard box

Line testers with bi-convex glass lens. Metal frame with silver-coloured finish. Aluminium frame. Optimally produced hinges guarantee long service life. Magnification factor of 6 x with a visible area of 25 x 25 mm.

Order no.	Description	Price excl. VAT:
1006-SA3	Line tester, 6x	20.00 €
Delivery:	Incl. packaging, freight charges see www.m-service.de	
Payment:	30 days, net	

PEAK Line tester 1006-WZ3

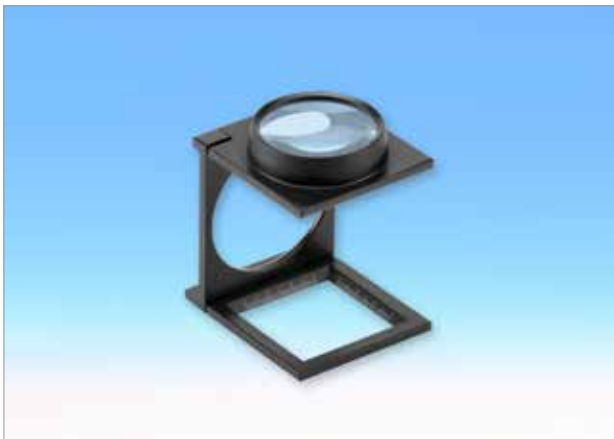

Magnification factor	6x
Frame	Metal
Field of view	25 x 25 mm
Measuring length	25 mm
Scale	1 mm
Optical characteristics	Aplanatic
Dimensions	48 x 40 x 52 mm
Weight	65 Grams
Packaging	Cardboard box

WZ3 and WA3 series line testers are equipped with aplanatic lenses for distortion-free magnification right up to the edge. The lens guarantees a high contrast image with maximum depth of field. The black enamel finish on the metal frame prevents irritating reflections.

Order no.	Description	Price excl. VAT:
1006-WZ3	Line tester, 6x	22.00 €
Delivery:	Incl. packaging, freight charges see www.m-service.de	
Payment:	30 days, net	

PEAK Line tester 1504-WA3

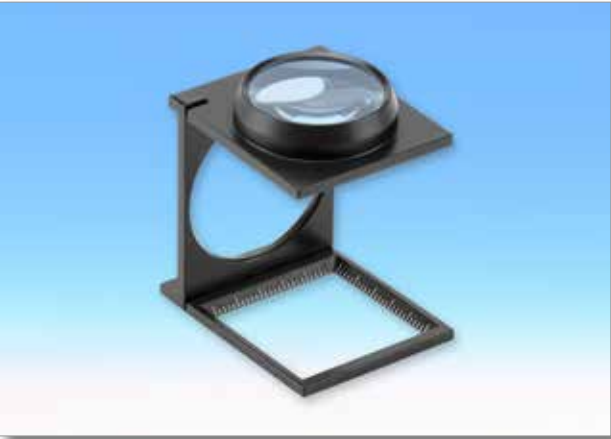

Magnification factor	4x
Frame	Metal
Field of view	40 x 40 mm
Measuring length	40 mm
Scale	1 mm
Optical characteristics	Aplanatic
Dimensions	68 x 57 x 79 mm
Weight	90 Grams
Packaging	Cardboard box

WZ3 and WA3 series line testers are equipped with aplanatic lenses for distortion-free magnification right up to the edge. The lens guarantees a high contrast image with maximum depth of field. The black enamel finish on the metal frame prevents irritating reflections.

Order no.	Description	Price excl. VAT:
1504-WA3	Line tester, 4x	72.00 €
Delivery:	Incl. packaging, freight charges see www.m-service.de	
Payment:	30 days, net	

PEAK Line tester 2003-WA3

Magnification factor	3x
Frame	Metall
Field of view	52 x 52 mm
Measuring length	52 mm
Scale	1 mm
Optical characteristics	Aplanatic
Dimensions	85 x 67 x 96 mm
Weight	145 Grams
Packaging	Cardboard box

WZ3 and WA3 series line testers are equipped with aplanatic lenses for distortion-free magnification right up to the edge. The lens guarantees a high contrast image with maximum depth of field. The black enamel finish on the metal frame prevents irritating reflections. The large field of view and high lens interval make this high quality line tester perfect for work such as retouching. The bottom cutout with dimensions of 52 x 52 mm allows slides to be inserted.

Order no.	Description	Price excl. VAT:
2003-WA3	Line tester, 3x	77.00 €
Delivery:	Incl. packaging, freight charges see www.m-service.de	
Payment:	30 days, net
