

USB power supply

Please note that depending on the PC configuration there may be problems with the power supply of USB cameras and interfaces via the USB interfaces.

The only remedy in such an event is an extra USB interface card.

The following cards have been tested positive (as of 07/17):

USB PCIe card 2 port USB 3.0 - EX-11092-2

USB PCIe card 4 x external USB 2.0 DeLOCK 89287

In addition to this please note our instructions on [USB energy settings](#).
